Radiation Protection Act 2006

A2006-33

Republication No 11

Effective: 1 January 2012

Republication date: 1 January 2012

Last amendment made by A2011-55

Unauthorised version prepared by ACT Parliamentary Counsel's Office

About this republication

The republished law

This is a republication of the *Radiation Protection Act 2006* (including any amendment made under the *Legislation Act 2001*, part 11.3 (Editorial changes)) as in force on 1 January 2012. It also includes any commencement, amendment, repeal or expiry affecting this republished law to 1 January 2012.

The legislation history and amendment history of the republished law are set out in endnotes 3 and 4.

Kinds of republications

The Parliamentary Counsel's Office prepares 2 kinds of republications of ACT laws (see the ACT legislation register at www.legislation.act.gov.au):

- authorised republications to which the *Legislation Act 2001* applies
- unauthorised republications.

The status of this republication appears on the bottom of each page.

Editorial changes

The *Legislation Act 2001*, part 11.3 authorises the Parliamentary Counsel to make editorial amendments and other changes of a formal nature when preparing a law for republication. Editorial changes do not change the effect of the law, but have effect as if they had been made by an Act commencing on the republication date (see *Legislation Act 2001*, s 115 and s 117). The changes are made if the Parliamentary Counsel considers they are desirable to bring the law into line, or more closely into line, with current legislative drafting practice.

This republication does not include amendments made under part 11.3 (see endnote 1).

Uncommenced provisions and amendments

If a provision of the republished law has not commenced, the symbol **U** appears immediately before the provision heading. Any uncommenced amendments that affect this republished law are accessible on the ACT legislation register (www.legislation.act.gov.au). For more information, see the home page for this law on the register.

Modifications

If a provision of the republished law is affected by a current modification, the symbol **M** appears immediately before the provision heading. The text of the modifying provision appears in the endnotes. For the legal status of modifications, see the *Legislation Act 2001*, section 95.

Penalties

At the republication date, the value of a penalty unit for an offence against this law is \$110 for an individual and \$550 for a corporation (see *Legislation Act 2001*, s 133).

Radiation Protection Act 2006

An Act to provide for the protection of the health and safety of people, and for the protection of property and the environment, from the harmful effects of radiation, and for related purposes

Part 1 Preliminary

1 Name of Act

This Act is the *Radiation Protection Act 2006*.

3 Object of Act

The object of this Act is to protect the health and safety of people, and to protect property and the environment, from the harmful effects of radiation.

4 Radiation protection principle

- (1) The *radiation protection principle* means the principle that people, property and the environment should be protected from unnecessary exposure to radiation through the processes of justification, limitation and optimisation for which—
 - (a) *justification* involves assessing whether the benefits of a radiation practice, or the use of a radiation source, outweigh the detriment caused by the practice or source; and
 - (b) *limitation* involves setting radiation dose limits, or imposing other measures, so that the health risk to anyone, or the risk of damage to property or the environment, from being exposed to radiation is below unacceptable levels; and
 - (c) *optimisation*—
 - (i) in relation to the conduct of a radiation practice, or the use of a radiation source, that may expose a person, property or the environment to radiation involves keeping—
 - (A) the magnitude of individual doses of, or the number of people who may be exposed to, ionising radiation; or
 - (B) if the magnitude of individual doses, or the number of people who may be exposed, is uncertain—the

likelihood of exposures of ionising radiation happening;

as low as reasonably achievable taking into account economic, social and environmental factors; and

- (ii) optimising, to a level of cost effectiveness, the conduct of a radiation practice, or the use of a radiation source, that may expose a person, property or the environment to non-ionising radiation.
- (2) The council, and anyone else with functions under this Act, must have regard to the radiation protection principle in exercising a function under this Act.

Note A reference to an Act includes a reference to the statutory instruments made or in force under the Act, including regulations (see Legislation Act, s 104)

5 Dictionary

The dictionary at the end of this Act is part of this Act.

Note 1 The dictionary at the end of this Act defines certain terms used in this Act, and includes references (*signpost definitions*) to other terms defined elsewhere in this Act.

For example, the signpost definition ‘*radiation source*—see section 9 (1).’ means that the term ‘radiation source’ is defined in that subsection.

Note 2 A definition in the dictionary (including a signpost definition) applies to the entire Act unless the definition, or another provision of the Act, provides otherwise or the contrary intention otherwise appears (see Legislation Act, s 155 and s 156 (1)).

6 Notes

A note included in this Act is explanatory and is not part of this Act.

Note See the Legislation Act, s 127 (1), (4) and (5) for the legal status of notes.

7 Offences against Act—application of Criminal Code etc

Other legislation applies in relation to offences against this Act.

Note 1 Criminal Code

The Criminal Code, ch 2 applies to all offences against this Act (see Code, pt 2.1).

The chapter sets out the general principles of criminal responsibility (including burdens of proof and general defences), and defines terms used for offences to which the Code applies (eg *conduct*, *intention*, *recklessness* and *strict liability*).

Note 2 Penalty units

The Legislation Act, s 133 deals with the meaning of offence penalties that are expressed in penalty units.

Part 2 Important terms

8 Meaning of *radiation* and *ionising* and *non-ionising* radiation

- (1) For this Act, *radiation* is a phenomena caused naturally, or created artificially, that is—
 - (a) an electromagnetic waveform, quanta or both; and
 - (b) propagated through space or through a material medium.
- (2) Radiation is *ionising* if it is—
 - (a) capable of producing ions directly or indirectly; and
 - (b) either—
 - (i) particulate radiation; or
 - (ii) electromagnetic radiation of a wavelength of 100 nanometres or less.
- (3) Radiation is *non-ionising* if it is electromagnetic radiation of a wavelength greater than 100 nanometres.

9 Meaning of *radiation source* etc

- (1) A thing is a *radiation source* if it emits or may emit radiation.
- (2) A radiation source can be a radiation apparatus, a radiation facility or radioactive material.
- (3) A *radiation apparatus* is—
 - (a) apparatus that—
 - (i) produces radiation when energised; or
 - (ii) if assembled or repaired, would be capable of producing radiation when energised; or

- (4) A *radiation facility* is a facility prescribed by regulation to be a radiation facility.

- (5) **Radioactive material** is material that spontaneously emits ionising radiation as a consequence of nuclear transformations.

10 Meaning of *prohibited radiation source* and *regulated radiation source*

- (1) A radiation source is a ***prohibited radiation source*** if it is prescribed by regulation to be a prohibited radiation source.
- (2) A radiation source is a ***regulated radiation source*** if it is—
- (a) a radiation source (other than a prohibited radiation source) that emits or is capable of emitting ionising radiation above the level prescribed by regulation; or
 - (b) a radiation source prescribed by regulation that emits or is capable of emitting non-ionising radiation.

11 Meaning of *deal* with radiation source

 - (f) for radioactive material—stores, packs or transports the material.

Note ***Dispose*** of and ***use*** are defined in the dictionary.

- (2) For subsection (1) (b), a person does not possess a radiation source only because, as part of a diagnostic or therapeutic procedure—
- (a) the person, or an animal kept by the person, has been injected with radioactive material; or
 - (b) radioactive material has been administered to or implanted in the person or animal in any other way.

Part 3 Radiation safety

Division 3.1 Safety duties

12 General duty to ensure no harm

A person who deals with a regulated radiation source must take all reasonable steps to ensure that no harm results to the health or safety of people or to property or the environment from radiation emitted from the radiation source.

Note 1 A failure to comply with this section may be an offence (see s 53).

Note 2 For the meaning of *deal* with a radiation source, see s 11.

13 Radiation exposure

- (1) This section applies to a person who deals with a regulated radiation source.
- (2) The person must take all reasonable steps to ensure that, if anyone (including the person) receives a dose of radiation, the dose must not result in that person receiving doses of radiation during a period that, when added together, are higher than the dose limit for the period.
- (3) This section does not apply to a dose received by a person from the carrying out of a diagnostic or therapeutic procedure involving the irradiation of the person at the request of a doctor.

Note 1 A failure to comply with this section may be an offence (see s 53).

Note 2 For the meaning of *deal* with a radiation source, see s 11.

14 Diagnostic or therapeutic procedures

A person who uses a regulated radiation source to carry out a diagnostic or therapeutic procedure involving the irradiation of a person (the *treated person*) at the request of a doctor must ensure that the treated person does not receive a dose of radiation from the procedure that is not in accordance with the request.

Note A failure to comply with this section may be an offence (see s 53).

15 Incorporated documents, approved codes of practice etc may be considered

In deciding whether a person has complied with a safety duty, an incorporated document, or approved code of practice, applying to the duty may be considered.

- (f) if the member exercises the member's functions other than in accordance with section 74 (Honesty, care and diligence of council members); or
- (g) if the member fails to take all reasonable steps to avoid being placed in a position where a conflict of interest arises during the exercise of the member's functions; or
- (h) if the member contravenes section 77 (Disclosure of interests by council members); or
- (i) if the member is absent from 3 consecutive meetings of the council, otherwise than on approved leave; or

Division 5.3 Functions of council members

72 Chair's functions

The chair of the council has the following functions:

- (a) managing the affairs of the council;

- (b) ensuring the Minister is kept informed about the operations of the council.

73 Deputy chair's functions

If the chair of the council is absent or cannot for any reason exercise the functions of the chair, the deputy chair of the council must exercise the functions of the chair.

Note The Legislation Act, s 209 deals with acting appointments.

74 Honesty, care and diligence of council members

In exercising the functions of a council member, a member must exercise the degree of honesty, care and diligence required to be exercised by a director of a corporation in relation to the affairs of the corporation.

75 Conflicts of interest by council members

A council member must take all reasonable steps to avoid being placed in a position where a conflict of interest arises during the exercise of the member's functions.

76 Agenda to require disclosure of interest item

The agenda for each meeting of the council must include an item requiring any material interest in an issue to be considered at the meeting to be disclosed to the meeting.

77 Disclosure of interests by council members

- (1) If a council member has a material interest in an issue being considered, or about to be considered, by the council, the member must disclose the nature of the interest at a council meeting as soon as practicable after the relevant facts come to the member's knowledge.

Note **Material interest** is defined in s (4). The definition of *indirect interest* in s (4) applies to the definition of **material interest**.

- (2) The disclosure must be recorded in the council's minutes and, unless the council otherwise decides, the member must not—

- (a) be present when the council considers the issue; or
- (b) take part in a decision of the council on the issue.

Example

Glenn, Joe and Bronwyn are members of the council. They have an interest in an issue being considered at a council meeting and they disclose the interest as soon as they become aware of it. Glenn's and Joe's interests are minor but Bronwyn has a direct financial interest in the issue.

The council considers the disclosures and decides that because of the nature of the interests:

- Glenn may be present when the council considers the issue but not take part in the decision
- Joe may be present for the consideration and take part in the decision.

The council does not make a decision allowing Bronwyn to be present or take part in the council's decision. Accordingly, since Bronwyn has a material interest she cannot be present for the consideration of the issue or take part in the decision.

Note An example is part of the Act, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see Legislation Act, s 126 and s 132).

- (3) Any other council member who also has a material interest in the issue must not be present when the council is considering its decision under subsection (2).

At a meeting of the council a question is decided by a majority of the votes of the members present and voting but, if the votes are equal, the member presiding has a deciding vote.

84 Conduct of council meetings etc

- (1) The council may conduct its proceedings (including its meetings) as it considers appropriate.
- (2) A meeting may be held using a method of communication, or a combination of methods of communication, that allows a council member taking part to hear what each other member taking part says without the members being in each other's presence.

Note An example is part of the Act, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see Legislation Act, s 126 and s 132).

- (3) A council member who takes part in a meeting conducted under subsection (2) is taken, for all purposes, to be present at the meeting.

- (4) A resolution is a valid resolution of the council, even if it is not passed at a meeting of the council, if all members agree to the proposed resolution in writing or by electronic communication.
