No. VIEN/110/19/2005

June 17, 2005

Excellency,

On behalf of the Government of India, I have the honour to inform you that the Indian Parliament passed the Weapons of Mass Destruction and their Delivery Systems (Prohibition of Unlawful Activities) Bill on 13th May 2005. After receiving the Presidential assent on 6th June, the Act (also referred to as the WMD Act) has been published in The Gazette of India (copy enclosed).

2. The WMD Act provides overarching and integrated legislation prohibiting unlawful activities in relation to weapons of mass destruction and their delivery systems. While reiterating India's firm commitment to safeguard its security as a Nuclear Weapon State and its undiminished commitment to global nuclear disarmament, the Act seeks to effectively translate at the operational level India's commitment to prevent proliferation of weapons of mass destruction. The legislation builds upon the existing regulatory framework related to controls over the export of WMD usable materials, equipment and technologies.

3. Over the years India has enacted a corpus of laws dealing with activities of direct or indirect relevance to weapons of mass destruction, their means of delivery and related dual use materials, equipment and technologies such as The Atomic Energy Act, 1962; The Chemical Weapons Convention Act, 2000; The Environment Protection Act, 1986; The Foreign Trade (Development and Regulations) Act, 1992; The Customs Act, 1962; The Unlawful Activities (Prevention) Amendment Act, 2004 and The Explosives Act, 1908. The WMD Act is in addition to the existing framework of legal and administrative controls: wherever any offence is punishable under the WMD Act as well as under any other Act in force, the offender will be liable to be punished under that Act which imposes greater punishment.

4. Specifically, the WMD Act fulfils India's obligations pursuant to the UN Security Council Resolution 1540 on non-proliferation of weapons of mass destruction by prohibiting the possession, manufacture, transportation, acquisition, development of nuclear weapons, chemical weapons or biological weapons by non-State actors.

5. The Act updates the present system of export controls in India with a view to making it more contemporary, by introducing transit and trans-shipment controls, re-transfer provisions, technology transfer controls, brokering controls and end-use based controls. The Act prohibits the export of any good or technology from India if the exporter knows that it is intended to be used in a WMD programme.

6. It is as much a concern to India as to any other country that sensitive and dual-use technologies should not fall into wrong hands. In order to ensure strict and effective control over such technologies, the Act includes a definition of the term 'technology' and regulates its flow by introducing 'transfer controls' over such technologies. It regulates the flow of sensitive and dual-use technologies and know-how from India, or by Indians abroad. It also seeks to regulate their flow to foreigners while in India. The provisions of this Act apply to citizens of India outside India, Indian companies with branches or subsidiaries abroad, persons in the service of the Government of India, within and beyond India, and foreigners while in India. The Act imposes a general prohibition on brokering, by Indians or foreign nationals in India, in any such transaction that is prohibited or regulated under the Act.

7. Regulation of transfers of sensitive and dual use technologies has assumed importance in view of the increasing capability of India to produce such technologies, though the originators of such technologies continue to be overwhelmingly parastatal in India. The requirement to regulate also arises out of the need to ensure comprehensive control over unique or closely held, indigenously developed technology or know-how. It also meets the requirement to ensure that such technologies do not fall into the wrong hands.

8. It would be greatly appreciated if you could circulate this letter as well as its attachment to all Member States of the Agency.

Accept, Sir, the assurances of my highest consideration,
