**COMMUNICATION FROM THE PERMANENT MISSION OF
THE REPUBLIC OF SLOVENIA
TO THE INTERNATIONAL ATOMIC ENERGY AGENCY
REGARDING GUIDELINES FOR THE EXPORT OF NUCLEAR
MATERIAL, EQUIPMENT AND TECHNOLOGY**

1. The Director General of the International Atomic Energy Agency has received a Note Verbale from the Permanent Mission of the Republic of Slovenia, dated 31 August 2001, providing information on the export policies and practices of the Government of the Republic of Slovenia with respect to the export of nuclear material, equipment and technology.
2. In the light of the wish expressed at the end of the Note Verbale, the text of the Note Verbale is attached. The attachment referenced in the Note Verbale was issued previously as INFCIRC/254/Rev. 5/Part 1.

NOTE VERBALE

The Permanent Mission of the Republic of Slovenia presents its compliments to the Director General of the International Atomic Energy Agency and has the honour to provide further information on its government's nuclear export policies and practices.

The Government of the Republic of Slovenia has decided to amend the Guidelines for Nuclear Transfers set out in INFCIRC/254/Rev.4/Part 1, in order to bring them in line with standard NPT terminology and to delete obsolete paragraphs and their references in the Annex with consequent changes to related paragraphs and Annexes.

Accordingly, the following changes were made to the text of the guidelines (INFCIRC/254/Rev.4/Part 1) and its Annexes:

- deletion of paragraph 6, and accordingly, its reference in paragraph 10 (a), and deletion of Part B of Annex A;
- replacement of the expression "weapons-usable-material(s)" with the expression "material usable for nuclear weapons or other nuclear explosive devices" in paragraphs 7, 9 (and its heading), and 10 (b)(4);

**To the
Director General
International Atomic Energy Agency
VIENNA**

- the renumbering of subsequent paragraphs, and accordingly, the amending of references in paragraphs 10 (b)(1) and 10 (c);
- merging of 10 (b)(2) with 10 (b)(3) and the addition of amendments resulting from the deletion of paragraph 6 and Part B of Annex A;
- amendments to Annex A:
 - 1) addition of a new paragraph, describing the common understanding of "same type" under the title "GENERAL NOTE" and subsequent change to this title;
 - 2) removal of "PART A" from the title "PART A. Material and equipment" and capitalisation of this title, and replacement of "PART A" with "MATERIAL AND EQUIPMENT" in all references.

In the interest of clarity, the complete text of the Guidelines including the modified Annexes is reproduced in the attachment, as well as a "Comparison Table of Changes to the Guidelines for Nuclear Transfers (INFCIRC/254/Rev.4/Part 1)".

The Government of the Republic of Slovenia has decided to act in accordance with the Guidelines for Nuclear Transfers so revised.

In reaching this decision, the Government of the Republic of Slovenia is fully aware of the need to contribute to economic development while avoiding contributing in any way to the dangers of a proliferation of nuclear weapons or other nuclear explosive devices, and of the need to separate the issue of non-proliferation assurances from that of commercial competition.

The Government of the Republic of Slovenia would be grateful if the Director General will bring this Note and its attachment to the attention of all Member States of the IAEA.

The Permanent Mission of the Republic of Slovenia avails itself of this opportunity to renew to the Director General of the International Atomic Energy Agency the assurances of its highest consideration.

Vienna, 31 August 2001
